

NAREP partners with Liberal Party of Denmark

By Allan Mwaanga
NAREP has partnered with the Liberal Party of Denmark in a collaboration that is expected to focus on mutual cooperative and democratic dis-

pensation for a year. Briefing the press in Lusaka on Tuesday at Longacres Lodge, Danish Liberal Democracy Programme (DLDP) manager Birgitte Rasamussen said they had identified the

National Restoration Party (NAREP) as a party that could bring change in many areas of the country.

"DLDP (Danish Liberal Democracy Programme) has identified NAREP to be the political party that could transform Zambia into a country with a different mindset by promoting personal responsibility, economic development and social justice through value based leadership. DLDP identifies itself fully with this set of values which are also the cornerstone of the

Danish society which we belong to and cherish," she said.

Rasamussen said according to the agreement, DLDP would help NAREP establish structures in all districts and implement a lot of activities during the year.

"NAREP and DLDP have decided that this year should be used to develop NAREP into a well-established opposition party that is relevant and effective and that has a strong presence both at national and local level. NAREP will be supported to

set up internal operating processes as an emerging modern democratic party contributing to the democratic development of Zambia," said Rasamussen.

And NAREP president Elias Chipimo Jr said the partnership would make the party relevant to the aspirations of Zambians.

"As a party, we see one of our main roles as the development of fresh and inspirational leadership. We aim to transform mindsets across the length and breadth of our country through the intro-

duction of issue based, constructive politics, upholding values that place emphasis on the development of all our communities, all our women and all our youth," said Chipimo.

The Danish Liberal Democracy Programme is the implementing partner of the partnership between NAREP and the Liberal Party of Denmark (United Venstre) which is the oldest political party founded in 1870.
